

Building with Unit Fractions

Fill 1 whole square with shapes

Fill The "Whole"

Use the tiling tool to fill each whole square with fourths.

Share Solutions

Model filling the whole with fourths.
Draw the solutions on your paper.

fourths

Summarize

Unit fractions name part to whole relationships.

4-fourths = 1 whole

$$4/4 = 1$$

fourths

fourths

Fill The "Whole"

Use the tiling tool to fill one square with thirds and the other with eighths.

1 whole

1 whole

Share Solutions

Let's model how to fill the whole with thirds and eighths.

Draw the solutions on your paper.

Summarize

Unit fractions name part to whole relationships.

3-thirds = 1 whole

thirds

8-eighths = 1 whole

eighths

What do you think?

What fraction of the square is each shape?
